PROFESSIONAL EXPERIENCE

Frontend Developer   05/2025 – 08/2025
IF NOT FOR GOD LIMITED 🔗
- Developed and maintained responsive web applications with cross-browser compatibility and mobile-first design.
- Collaborated with designers and backend developers to translate UI/UX wireframes into interactive, high-performing features.
- Implemented reusable components and optimized performance using React, Tailwind CSS, and modern frontend practices.

PROJECTS

Car Rental 🔗
- Developed Car Rental, a scalable MERN-stack web application for browsing and booking vehicles.
- Implemented JWT-based role-based authentication, optimized data models, and robust error handling for secure and reliable operations.
- Enhanced user experience with skeleton loading, image caching, and smooth rendering of vehicle listings.
- Strengthened skills in MongoDB, Express.js, React, Node.js, authentication systems, and performance optimization.

Book Store 🔗
- Developed Book Store, a MERN-stack web application for discovering and purchasing books.
- Implemented full-text search, dynamic filters, and a smooth cart-to-checkout flow to enhance user experience.
- Optimized performance with responsive UI, lazy-loaded visuals, and fast-rendering pages.
- Integrated secure backend operations to ensure reliable transactions and data protection.

SKILLS

- HTML 5, CSS , Javascript
- Node.js , Express.js , MongoDb
- JWT Auth, Firebase Auth & API Integration
- Tailwind CSS, React.js , Next.js
- Modular Javascript, Git & GitHub
- Responsiveness, Form handling & validation

EDUCATION

Computer Science
Enugu State University of Science and Technology
